Experience and expertise fields: (50 words)

SOISIC is positioned as provider of hard IP cores for the design and manufacturing of integrated circuits on SOI/CMOS technologies. SOISIC offer includes standard and I/O cells libraries, ROM and RAM compilers, ASIC design and RF design. SOISIC benefits from more than 15 years of R&D in the SOI field. SOISIC design teams are experienced in both digital and analog/RF design.

Facilities and Equipment:

SOISIC has two design Center one in Grenoble, one in Paris.

Three last international research projects:
